Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 13 November 2003. These drawings are approved.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Clarke (USP 512,363). The patent to Clarke discloses a holder for a paintbrush comprising a sleeve (B) comprising a plurality of sidewalls (C) and a base (b) with an aperture through which the handle (a) of the paintbrush is adapted to extend and wherein the sleeve is configured to substantially receive the body of the paintbrush in a nesting relation such that the aperture of the sleeve is in alignment with the handle. The only structure positively recited in claim 12 is the holder and the references to the handle of the brush being removable do not constitute a positive recitation thereof. The patent to Clarke also discloses an absorbent (claim 14) liner (f') having sidewalls and an aperture generally commensurate in shape with the sleeve (claim 13).

Allowable Subject Matter

4. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 1,3-6,9-11 and 16-21 are allowed.

Response to Arguments

6. Applicant's arguments (with regard to claim 12+) filed 13 November 2003 have been fully considered but they are not persuasive. Whether or not the handle of the paintbrush is removable does not further limit the structure which is positively recited in the claims. The claims are drawn to a sleeve/holder for use with a brush and not a combination therewith.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
